# A turbulent epic

SHOW TIME

Julie Andrews, Max Von Sydow and Richard Harris star in this turbulent epic set in the Hawaii of the 1820's when the innocent and immorally happy natives first felt the impact of the white man on their lives. Spy films seem to come servet agent whose son is hunches like bananas (some greener others).

He plays an American servet agent whose son is killed in a sking "accident." He goes to Austria to investigate and uncovers the comedy-thriller rice she co-stars with hard Harris. This time isn't amorous leading chasing her around rooms but killers chas-her across the Alps.

Again its a Double X bill for the Ambassador with its acreen version of Dostoevsky's Crime and Pusishment starring Jean Gabin and Marina Vlady. Supporting is Strip Tease starring Krista Nico and Dany Saval.
